

Susceptible

```
graph LR; A[Susceptible] --> B[Infected]; B --> C[Recovered];
```

A horizontal flowchart illustrating the SIR model. It consists of three rectangular boxes arranged from left to right. The first box is yellow and contains the word 'Susceptible'. A black arrow points from the right side of the yellow box to the left side of the second box. The second box is orange and contains the word 'Infected'. Another black arrow points from the right side of the orange box to the left side of the third box. The third box is blue and contains the word 'Recovered'.

Infected

Recovered
